Only the person performing the work may obtain a permit and schedule an inspection.

Installations requiring inspections must not be covered until approved. Failure to receive approval may result in orders requiring the removal of such covering.

Installations must be in accordance with the current edition of the adopted Ohio Residential Code and referenced documents

Requests for field inspections must be made a minimum of 24 hours in advance and will be scheduled for the next working day.

Applicants on the schedule for the day's inspections may contact the respective inspectors during the morning from 8:00 am to 8:45 am for consultation or scheduling time.

An additional \$45.00 reinspection fee may be imposed for work that is not properly installed, is not ready for inspection, has changed from the approved plans or is not accessible at the time of the inspection.

Residential plans must be submitted with a "plan approval application" – sealed drawings are not required.
