Dear Ms. Hartley:

Springfield-Beckley Municipal Airport
Master Plan Update Forecasts

We have completed a review of the forecasts that were included as part of the master plan update effort that were submitted to this office for review on August 15, 2005 by your consultant. Based on our review of the forecasts for Springfield-Beckley Municipal Airport, the "mid" forecast as presented in Exhibit 2T – Forecast Summary are approved for use in the master planning document.

We do not concur with the "high" forecasts as presented in Exhibit 2T – Forecast Summary that were submitted as a part of the Master Plan Update effort, however, it is acceptable to use the "high" forecasts for facility planning requirements.

Please feel free to contact me at (734) 229-2916 if you have any questions or wish to discuss this further.

Sincerely,

Brad N. Davidson, P.E.
