Homelessness Prevention - Other Risk Factors to be Used

For Homelessness Prevention activities, in addition to HPRP eligibility requirements, are there other risk factors that will be used to determine eligibility and/or prioritization for homelessness prevention assistance? No

If yes, identify the criteria to be used and provide a brief description, including how the criteria will be used (e.g. limited to only certain types of HPRP assistance or applied across all subgrantees and types of assistance) and rationale for why the criteria were chosen (limit 2500 characters).

HMIS Plan for Entering Data

Will beneficiary data be entered (or uploaded at least quarterly) into a single HMIS at the grantee level in order to generate unduplicated data for "Persons and Households Served" questions in the QPR? No

If yes, briefly describe the HMIS to be used and the plan to ensure data quality (completeness and accuracy)(limit 2000 characters).

If no, briefly describe the HMIS(s) and/or other comparable client-level database(s)that will be used by one or more subgrantees and the plan to ensure data quality (completeness and accuracy)(limit 2000 characters).

Each provider contracting with the Department of Jobs and Family Services to provide HPRP assistance to clients will enter client information into the HMIS system utilized by the Springfield Clark County Housing Collaborative, ServicePoint, with the exception of Project Woman. Project Woman is the local domestic violence agency. PW will utilize their own, comparable client-level database, and will provide client information to the City and County to report on the HPRP grants. The CoC has been using HMIS since 2003 with the support agencies being trained to enter their own client information in 2007. Each agency will have to input client information before case management reimbursement and financial assistance can be provided.

Authorizing Information and Certification
