## 4 Combined HMIS and Comparable Database Data Quality

**Instructions:**

Report the number of clients served during this reporting period, as well as the number of adults served, unaccompanied youth served, and total clients leaving during the reporting period. Then report the number of clients with "Don't Know" or "Refused" recorded for each of the required HMIS data elements in the table below. Similarly, report the number of clients with missing data for each of the required data elements. Each record corresponds to one client served.

Data quality is based on the latest date of service for each client in the reporting period. The information entered in this screen should represent the quality of HMIS data, as well as data collected in a comparable database. If multiple databases are used across a grant, data should be merged for reporting purposes.

**Total number of records for all HPRP clients:** 30  
**Total number of records for Adults Only:** 21  
**Total number of records for Unaccompanied Youth:** 0

## 5a Persons Served by Household Type - Homelessness Prevention

**Instructions:**

Report the unduplicated count of all persons who were served in an HPRP program for homelessness prevention during the reporting period. "Served" means that the person had an HPRP program entry or exit date within the reporting period and at least one HPRP service activity (e.g., financial assistance and/or housing relocation and stabilization service).

Each person should be counted in the household type associated with his or her last "homelessness prevention" stay of the reporting period. Age should be calculated based on entry date closest to the end of the reporting period; or if persons were in the program during the previous reporting period, then age should be calculated for the first day of the reporting period.

The household types include:

- a) Households without Children - include single adult persons, or adults with adult companions that have never had a child in their household.
- b) Households with Children and Adults - include any household with at least one adult and one child present regardless of whether the child(ren) is present for the full program stay.
- c) Households with Only Children - include any household where all persons are younger than age 18.
- d) Unknown Type - If age is missing for a member of a household, it is only possible to determine the person's household type if the household already includes at least one adult and one child. Otherwise, these persons should be recorded under unknown household type.

## 15 Client Monthly Cash Income Amount - Adult Leavers

**Instructions:**

Report the number of adult leavers in each income category.

Income at entry - Count each adult in the row that corresponds with the amount of income each person had at the first entry of the operating year or annual assessment nearest the first day of the operating year, whichever is later.

Income at exit - Count each adult in the row that corresponds with the amount of income each person had at exit.

Less/Same/More/Unknown Income - Count each adult in the row that corresponds with the amount of income each person had at entry and in the column that corresponds to whether the person's income at exit was less, the same, or more than income at entry. Record the person in the unknown column if income at exit is missing.

Average Change - In each row, calculate the average change in income between entry and exit for the people counted in that row in the "Income at Entry" column. (e.g., report the average change (\$) in income for the people who had no income at entry.) Calculate the average for all clients and report in the total row.

Leavers - The term "leaver" refers to persons who exited and were not in the program on the last day of the reporting period.

## 22 Significant Program Accomplishments

**OPTIONAL:** Please describe any significant accomplishments achieved by your program during the reporting period.

**Maximum Characters: 2000**

The two significant accomplishments noted in the 2010 HPRP ARP still stand. The HPRP program and the process of setting up this system proved to be beneficial for the local continuum. As we approach HEARTH implementation, the foundation built by this process will continue to benefit the community. The improvement in the respect and credibility given locally to the importance of HMIS information has come a long way as well.

Likewise, just like the 2010 APR, it will be noted here that the HMIS numbers are not perfect. As the report numbers are being entered now, there are numbers that do not quite make sense. HMIS data collecting and recording is an important, and very complex process - one that is not easy to get perfect.

## 23 Program Description

**Describe the following elements of the HPRP program design and implementation.  
Include any changes made since the beginning of the program.**

### **Homelessness Prevention**

Maximum Characters: 2000

The Homeless Prevention component includes clients assessed at levels 1 and 2 in yhr local process. The first few months of the first year of HPRP saw a slew of clients assessed at level 1 by the partners at JFS. It was decided after March 2010, that the JFS partner would stop assessing for HPRP and the program would concentrate on the more needy Level 2 and Level 3 clients. Level 2 client assessments and benefits would remain the same as in year 1.

### **Rapid Re-Housing**

Maximum Characters: 2000

Rapid Re-Housing is the benefits provided for Level 3 clients. These clients are already homeless and/or in shelters. These clients received longer/more assistance (same as in year 1). Clients could receive up to \$2500 in financial assistance and would meet with a case manager 2-6 times for counseling.

### **Collaboration with Continuum of Care**

Maximum Characters: 2000

As stated in the Year 1 APR - the HPRP system including the policies and procedures were designed in conjunction with the local Continuum of Care providers. As information regarding the new HEARTH regulations became known, these same providers are monitoring this information and will ultimately assist in the design of the new Emergency Solutions Grant policies and procedures.

### **Collaboration with other ARRA programs**

Maximum Characters: 2000

As reported in the Year 1 APR - many of the providers that assisted in the process for HPRP, also assisted with the development of a plan to utilize the NSP1 grant the City received and also help to apply for and receive the NSP2 grant.

### **Barriers to and challenges with effective implementation**

Maximum Characters: 2000

As mentioned in a few webinars, the HPRP process was difficult because we had to design the airplane while flying it. The local continuum adjusted the HPRP program as new information and expectations were being rolled out for HPRP.

**Grantee's process for oversight and monitoring of sub-grantees/contractors**

Maximum Characters: 2000

Hyden Consulting acted as "project manager" for the the HPRP grant the City received and for the HPRP grant that Clark County received as well. Running these two grants simultaneously made for a cumbersome process at times, but Hyden became experts in the process in little time. Hyden conducted documentation reviews each time a client was referred for assistance. Additionally, Hyden conducted file reviews for each agency and acted as an intermediary for HMIS data quality compliance.

## 24 Additional Comments

**OPTIONAL:** You may use this space to provide any additional comments on areas of the APR that need explanations.

Maximum Characters: 2000

## 25 Submission Certification

### HPRP Homeless Management Information System (HMIS) Data Certification

As stated in the HPRP Notice, "The Recovery Act requires HPRP grantees to report client-level data, such as the number of persons served and their demographic information, in a Homeless Management Information System (HMIS) or a comparable database." The Notice further states, "HPRP grantees and subgrantees providing financial assistance and services directly will use the HMIS in the applicable Continuum of Care to collect data and report on outputs and outcomes as required by HUD."

The purpose of this screen is to certify to HUD that grantees are compliant with the HPRP Notice. The grantee should work with the HMIS Lead to certify all information contained in this HPRP APR was generated by an HMIS or a comparable database, where appropriate.

Please complete one (and only one) of the following:

All of the data on persons and households served in this APR was pulled from an HMIS

Some of the data on persons and households served in this APR was pulled from an HMIS Yes

None of the data on persons and households served in this APR was pulled from an HMIS

If all data contained in the HPRP APR was NOT pulled from an HMIS, please explain why below:

(Reasons may include DV agencies using a comparable database, etc.)

Maximum 2000 characters

In the first year of this HPRP system, the local DV agency assisted HPRP clients. Client information was collected in a database outside of the HMIS system all other clients were reported in. All information for THIS APR year was collected in one HMIS system. The Year 1 APR included numbers collected and combined from both HMIS and a non-HMIS system. Only GTD information for this APR is effected.

The Name of the Authorized Grantee Official should be the same as submitted in the HPRP Substantial Amendment, unless there has been a change.

Name of Authorized Grantee Official James A. Bodenmiller  
Title/Position City Manager

**I hereby certify that all the information stated herein is true and accurate. I understand that HUD will prosecute false claims and statements and that conviction may result in criminal and/or civil penalties (pursuant to 18 USC 1001,1010,1012;31 USC 3729,3802).**
